

Drywall Corner Bead

Spring 2002

Vinyl Drywall Accessories

Drywall Arch Corner Bead

AMICO Drywall Arch Corner Bead the drywall arch corner bead is pre-notched to facilitate the curving of this bead during installation. Perforations and ridges on all surfaces that receive finishing compound or veneer assure excellent adhesion. AMICO'S improved notches form more uniform curves than some products currently available.

120° Wide Angle Drywall Corner Bead

AMICO 120° Drywall Corner Bead (Wide Angle) has the same characteristics as regular drywall corner bead except that the angle has been opened wider to allow for larger or irregular corners.
