AMICO Rigid Vinyl (PVC) Beads

2. MANUFACTURER

AMICO

Alabama Metal Industries Corporation

P.O. Box 3928

Birmingham, AL 35208

Telephone: 800-366-2642

Facsimile: 205-780-3303

3. DESCRIPTION AND PERFORMANCE

EIFS accessories are manufactured from the highest quality exterior grade vinyl compounds, which are specially formulated for exterior applications. These beads are designed to function at optimum levels in most climatic conditions for many years of service.

Long Lasting:

AMICO bead products will not rust, peel, or affect the plaster mix in any way. Accessories will hold their shape, and stay true and straight when installed properly.

Thru-Color:

The color is solid throughout the product. They are not coated, there is nothing to peel or chip.

Paint Adhesion:

Excellent with no preparation required.

Flammability:

PVC products will not support or spread flames, They are self extinguishing as soon as the flame source is removed, therefore, it will not start a fire. AMICO vinyl bead products meet code requirements for smoke and flame spread as stated in ASTM-E84. Rigid vinyl will not conduct electricity and offers a very low thermal conductivity.

Adhesion of EIFS Finishes:

All AMICO Vinyl EIFS Beads are provided with adequate perforations to allow complete embedment. This allows all EIFS accessories to key to the attached lath for complete bonding of the system.
